

CARBONE LORRAINE

Dedicated Innovation, Dedicated Partner

Acquisition of GE Power Fuse Business *Reinforcement of Electrical Protection division*

Paris, December 5th, 2007

1

Carbone Lorraine is carrying through a selective acquisitions policy aiming at accelerating the profitable growth of its activities in the coming years. This policy includes a reinforcement of the offer in medium voltage products, a segment targeted by the Electrical Protection division.

Expanding offering in medium voltage fuses

The Group today announced the acquisition - through **Ferraz Shawmut** LLC, its US-based Electrical Protection division - of **General Electric's Power Fuse** operations from GE Consumer & Industrial business. The GE component, based in Vieques, Puerto Rico will be combined with the existing Ferraz Shawmut medium voltage fuse business based in Newburyport, MA. With sales to top key OEM and distributors in the US, GE Power Fuse operations is posting approx. **9 million US\$** revenues.

Acquiring GE's medium voltage fuse business represents a **significant expansion** for Ferraz Shawmut in terms of product offering and fuse technology. This will strongly enhance its position in this growing segment of the **power fuse industry**.

A leading position in the MV fuses market

With this line of medium voltage fuse product, Ferraz Shawmut consolidates its worldwide leading position as a provider of safe and reliable electrical protection and reinforces further its rewarding relationships with major distributors and large electrical industrial groups providing both existing and new customers with a high level of service and innovation.

With this leading position in the North-American type medium voltage fuse segment and with its increasing portfolio of German type medium voltage fuses, Ferraz Shawmut is enhancing its global development on the growing market segments of Power Generation & Distribution, and Industrial Controls.
